DETAILED ACTION

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 4, 9-11, 26, 31, 36, 38, and 39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakaya (USPN 5,458,213) in view of Oliver (USPN 3,794,353).

Nakaya shows an adjustable position motorcycle with an adjustable seat 37, a movable handlebar assembly 55, and a movable footrest assembly 45. The seat includes tubes fixed to the seat that slide on rails 39. The footrest assembly includes front 47 and rear 46 footrests on each side of the motorcycle, that can be moved between different fixed positions to adjust to the desired rider position. The handlebar assembly includes an adjustment assembly that moves the handlebar between forward and rearward positions.

Nakaya fails to teach positioning a set of footrests forward of the seat. Oliver teaches providing a second set of footrests and positioning them on the down tubes, forward of the seat, in order to provide a relaxing alternate position for the rider's feet.

It would have been obvious to one of ordinary skill in the art to provide the Nakaya motorcycle with a second set of footrests forward of the seat, as taught by Oliver, in order to provide a rider with a relaxing second foot position.

Regarding claims 10 and 38, Nakaya is silent regarding the use of an actuator to adjust the seat position. However, seat adjustment actuators on automotive vehicles are old and well known. It would have been obvious to one of ordinary skill in the art to provide a seat adjustment actuator for the Nakaya seat, in order to facilitate adjustment of the seat position.

3. Claims 2, 3, 27, 29, 30, and 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nakaya and Oliver as applied to claims 1 and 26 above, and further in view of Dennert (USPN 6,846,018).

The combination lacks a gearshift lever for each use with the foot pegs.

Dennert teaches positioning the gear/brake levers proximate each footrest 144 for use therewith.

It would have been obvious to one of ordinary skill in the art to provide the Nakaya motorcycle with gear/brake levers proximate each footrest, for use therewith, in view of Dennert, in order to conveniently control gear shifting and braking functions.

4. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Nakaya and Oliver as applied to claims 1 and 26 above, and further in view of Fukunaga (USPN 6,332,625).

Nakaya lacks a triple tree arrangement for the handlebar assembly.

Fukunaga shows a motorcycle handlebar assembly including a triple tree assembly 13 including upper 52 and lower 53 triple tree plates.

Art Unit: 3611

It would have been obvious to configure the front fork of the Nakaya arrangement as a triple tree assembly, as taught by Fukunaga, in order to reinforce the front fork structure.

5. Claims 6-8, 12, 28, 32-35, and 40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 13-25 allowed.

7. Applicant's arguments with respect to claims 1-5, 9-11, 26, 27, 29-31, and 36-39 have been considered but are moot in view of the new ground(s) of rejection.

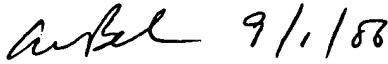

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
